

# CovidBusters Surgical Cap Pattern

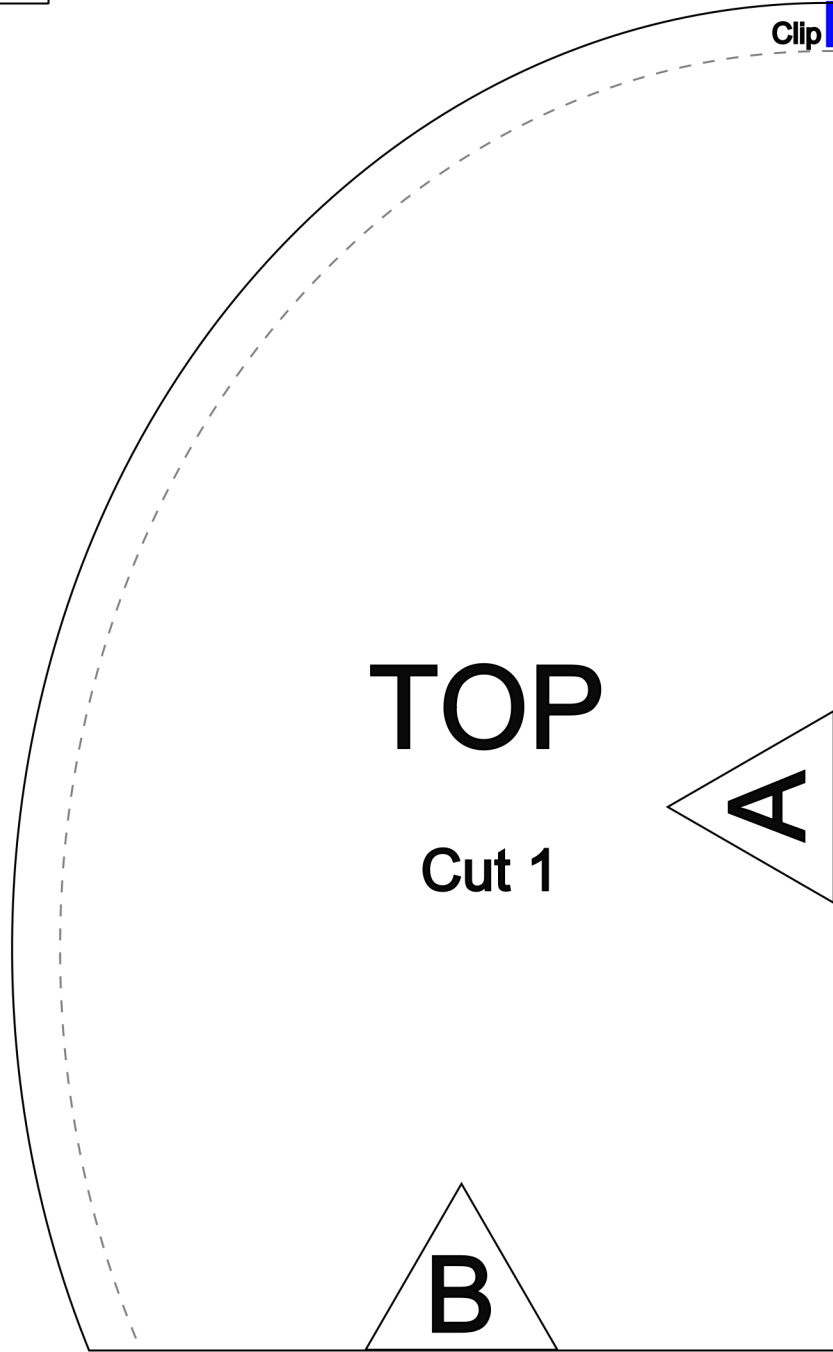

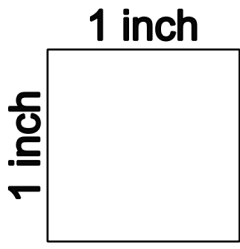

Print this pattern and check to make sure that the scale is right. When printed, the square on the pages with the pattern pieces will measure 1 inch square. The scaling on your printer should be set at 100% for US letter size paper (8 1/2" by 11").

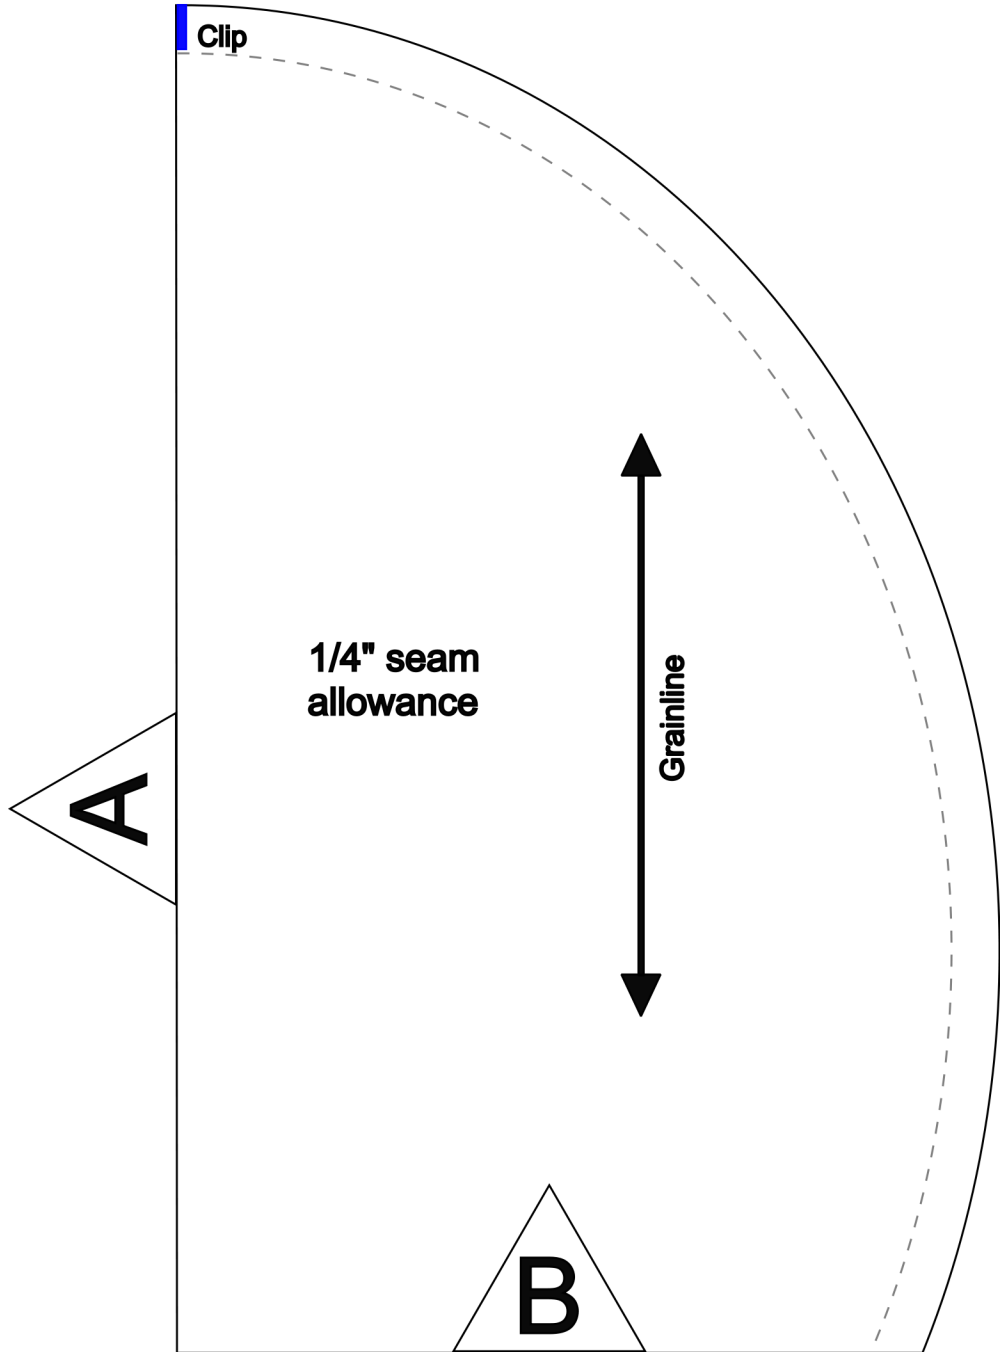

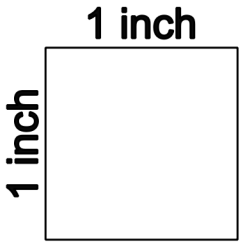

You may want to print this pattern onto cardstock to make it easier to trace. Carefully cut the pieces out, cutting on the black line.

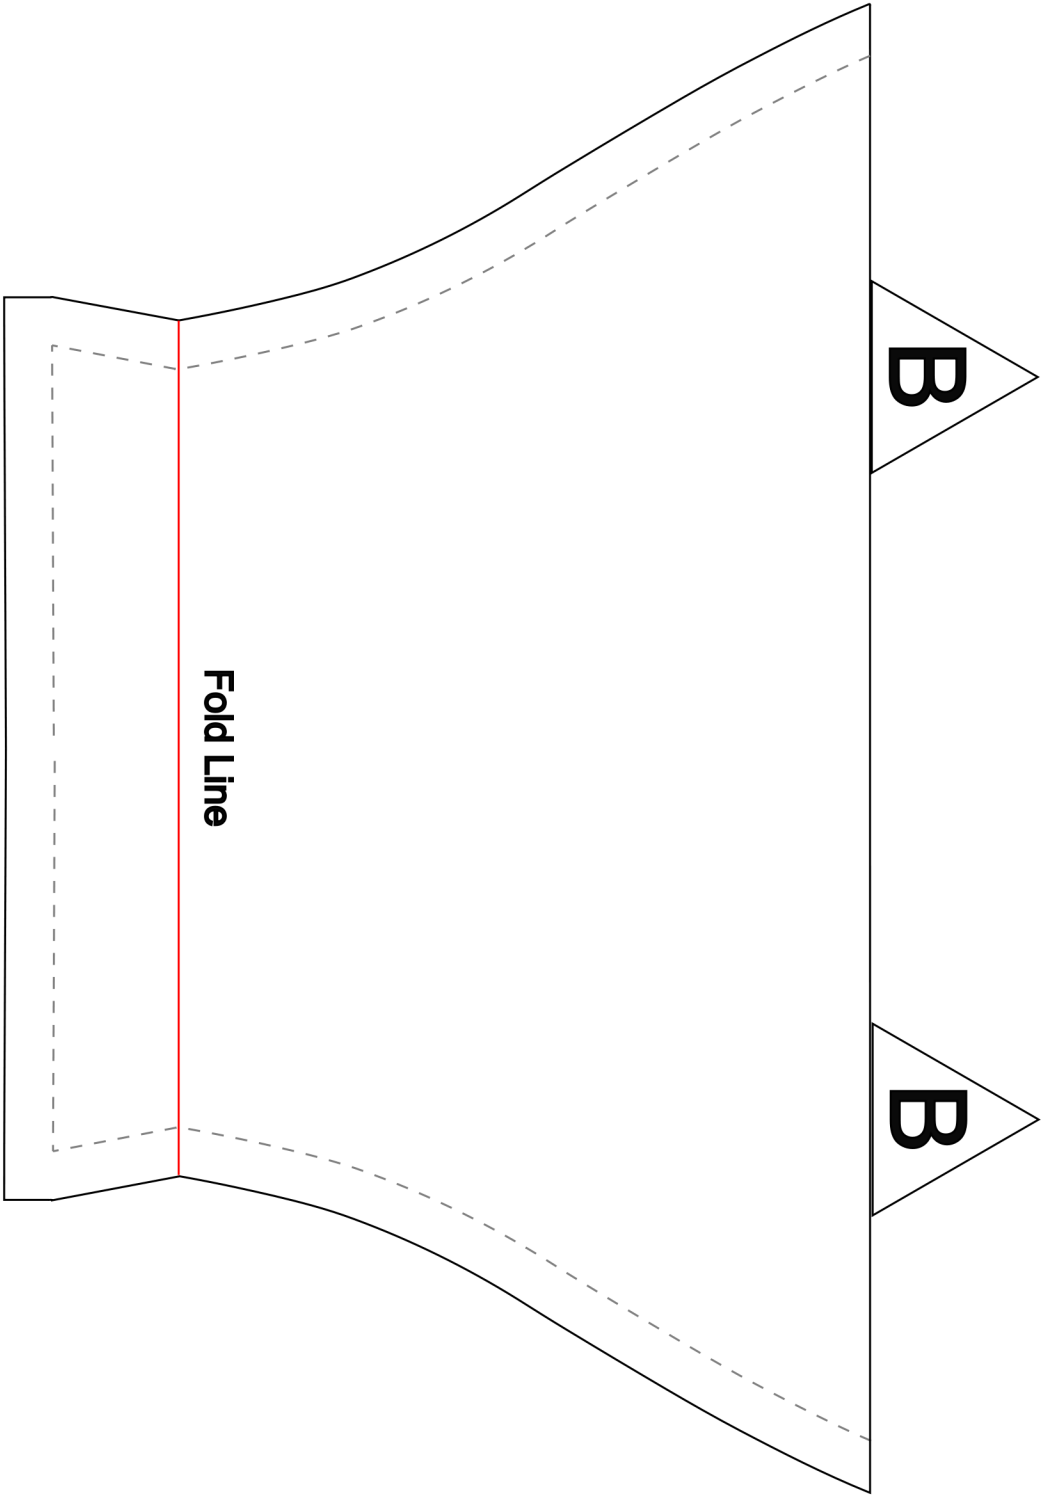

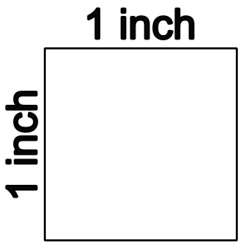

Because this pattern is bigger than letter size paper, it has been split into several pieces. After printing, match up the triangles/letters and tape the pieces together.

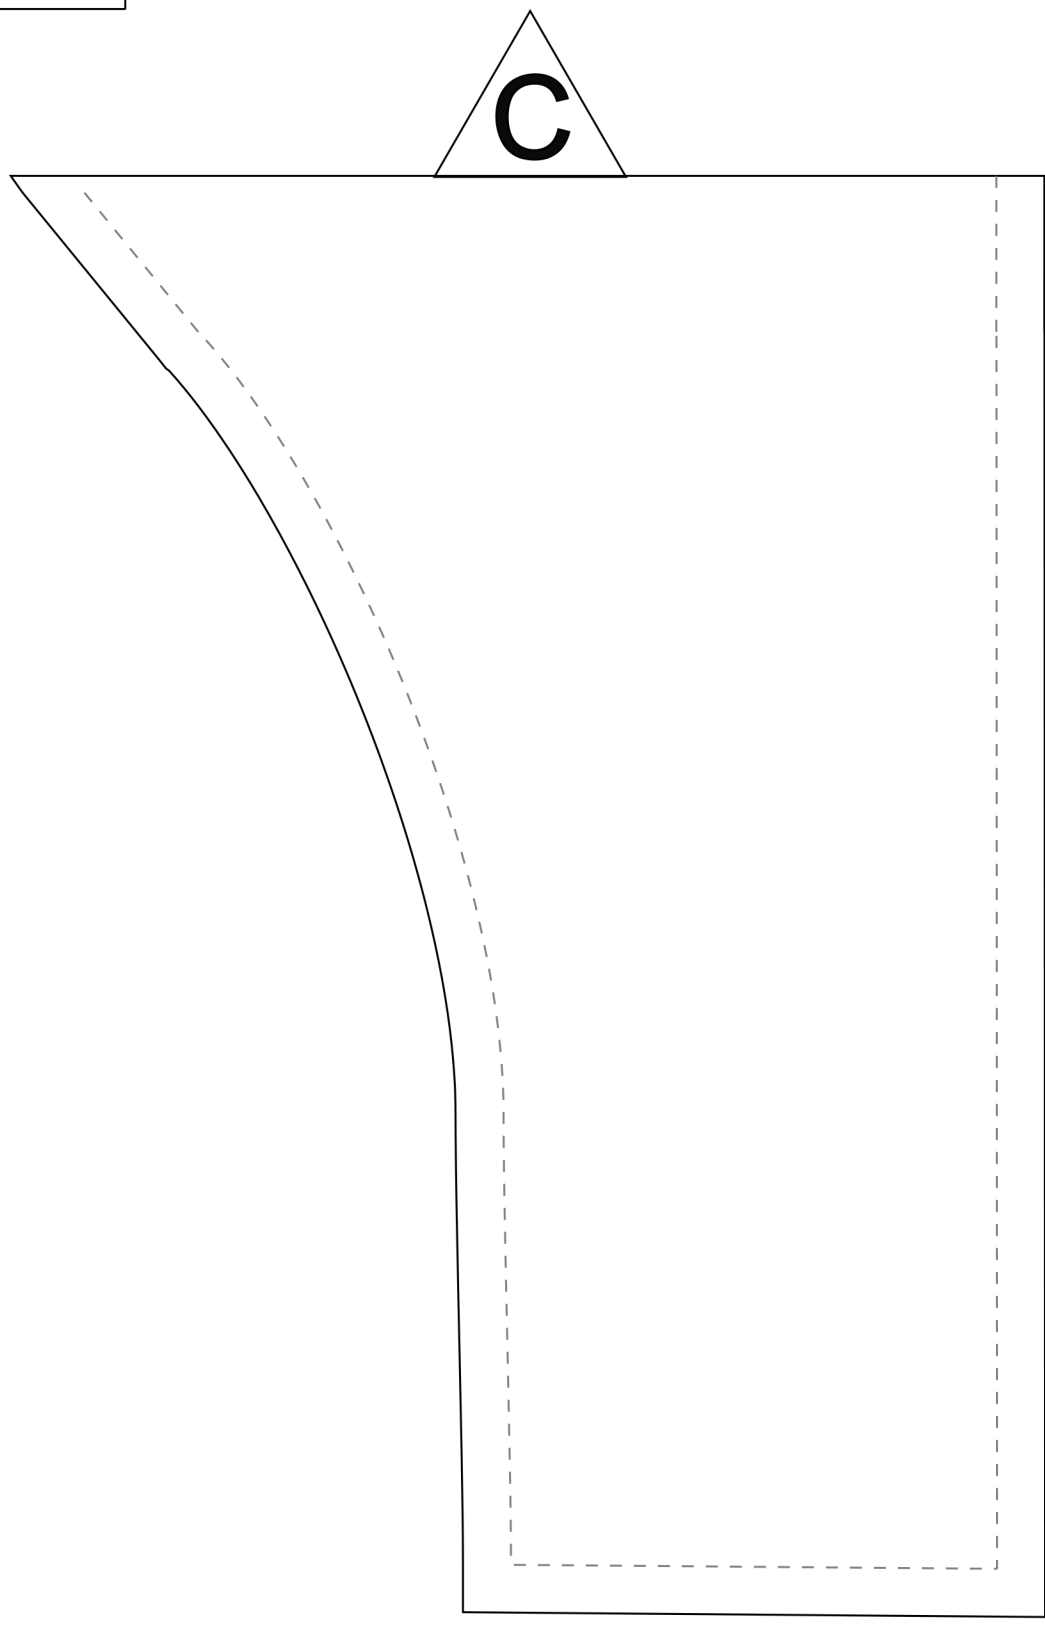

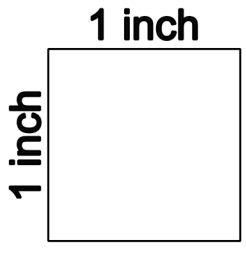

## Legend

Marking	What is it?
	Seam Line
	Fold Line
	Clip/notch fabric
	Start/end seam here - backstitch

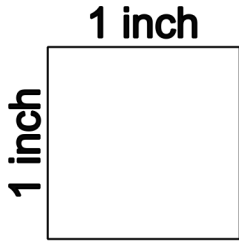

Clip

Leave gap for turning
